KESSLER AVE AND MAPLE AVE
*****PIPELINE ALERT*****

We received information that UGI is looking for alternative paths which includes one through Shamokin Dam Borough. Additional information suggests that they may want to purchase properties along routes 11/15. The map below indicates an area that encompasses Kessler Ave, Stetler Ave. and Maple Street. This area may be targeted for a new proposed pipeline route. Survey activity is an early indication that something is up, so beware if you are asked to sign anything. A local official told me that there was a third route being considered but he would not elaborate. Unfortunately, we are left with rumors and speculation. This is typical of our experience with the process so far.
